

Why choose LLA?

Dr. Lezaic is a practicing physician who has personally done over 5,000 patient procedures. She successfully built three practices, so she understands the importance of building an efficient office system as well as the patient procedures. She has trained hundreds of people who are now practicing aesthetics. She has also trained dozens of people who are now in the field training others. Although Dr. Lezaic specializes in laser treatments, LLA offers a wide range of trainings in other aesthetic and cosmetic procedures.

What trainings are offered?

- *Fillers/Injectables*
- *IPL*
- *Laser Hair Removal*
- *Laser Skin Resurfacing*
- *Vein Treatments*
- *Vibraderm*

About Dr. Jill Lezaic

From her beginnings at The Ohio State University through the founding of her third successful medical practice, Dr. Jill Lezaic has been a diligent primary care physician especially aware of her patients and her community. Her diligence earned her an ever-growing

practice. Her awareness led to the realization that her patients wanted her to offer services in the field of Aesthetic Medicine. The aesthetic services proved to be beneficial for patients while also creating a new and profitable revenue stream for her practice. She knew that others could benefit from her knowledge.

Dr. Lezaic received her Doctorate from Nova Southeastern University College of Osteopathic Medicine, graduating with Honors. She is a board certified Family Physician and a member of the American Society for Lasers in Medicine & Surgery. She now specializes in Aesthetic Medicine, including laser treatments.

Since building her first practice Dr. Lezaic has built a second successful practice; become a high demand international speaker in aesthetic medicine; and earned the distinction of Luminary Physician for Cutera, Inc., a leader in lasers and light based devices. This year she founded a third Aesthetic Medicine practice, as well as the Lezaic Laser Academy. Her academy offers a preceptorship specifically designed to train physicians and others on the blueprint for a successful Aesthetic Medicine practice.

Lezaic Laser Academy Preceptorship Program

The field of aesthetics medicine is growing rapidly. Many private practices and medical spas are incorporating aesthetic procedures into their daily operations. These procedures create an opportunity to offer sought after services to patients while adding a new and profitable revenue stream. Getting started is easier than you think.

Lezaic Laser Academy provides the most comprehensive training available in the aesthetics industry. Founder of Lezaic Laser Academy, Dr. Jill Lezaic, has seven years of experience and is considered an expert in the field. Dr. Lezaic has a thriving practice and a demanding schedule of lectures and seminars designed to teach new entrants into the field of aesthetic medicine. As successful as the seminars have been, Dr. Lezaic realizes that the best teaching method, and the method that allows practices the fastest, most thorough track to success, must include hands-on training and practical experience. This is what separates Lezaic Laser Academy Preceptorship from other programs.

The LLA Comprehensive Preceptorship will teach you how to:

- Select and use lasers and other cosmetic equipment
- Perform effective and thorough patient consultations
- Execute procedures efficiently and effectively
- Maximize patient results by combining certain procedures
- Integrate aesthetic medicine seamlessly into current operations

This preceptorship encompasses everything necessary for a successful aesthetics practice. It includes the ability to shadow and observe Dr. Lezaic in practice, through which participants will receive valuable insight into patients' desires and expectations (perhaps the most important component of a successful practice). Participants also get real-world, real-time training on equipment and procedural tactics. Additionally, participants receive a CD containing ready-to-use documentation including patient information packages, pre & post care paperwork and comprehensive consents. This is the same up-to-date, clear and concise paperwork that Dr. Lezaic uses for her own successful practice, so you'll be ready to go on day one!

Typically, the LLA Preceptorship is a two day session at the offices of Dr. Lezaic (since all resources, including patients, are readily available). However, we will be happy to accommodate flexible scheduling and/or on-site training at your request. Please feel free to call Lezaic Laser Academy (904.000.0000) or email (info@lezaiclaseracademy.com) for additional information or to schedule your comprehensive preceptorship.
