What our parents are saying...

I am proud of the spiritual and emotional growth my child has made at Open Arms. She loves her friends and teachers.

Elisa Johnson

We chose Open Arms for our family because we immediately felt a true sense of love in this place. We feel the teachers and staff genuinely love our children, and our children truly love them.

Emily Smith

I am so impressed with my daughter's verbal and social development since she started attending Open Arms. Her teachers are genuinely concerned with her growth and well being.
